“I am setting before you today a blessing and curse— the blessing if you obey the commands of the Lord your God, the curse if you disobey.” Dt 11:26-8

WELCOME TO THE END OF AN EMPIRE!

We are about to witness the bankruptcy of the United States of America

Within the next 12 months the U.S. Treasury will have to refinance $2 trillion in short-term debt, plus $1.5 trillion in additional deficit spending. That’s $3.5 trillion due in the next 12 months. How can the Treasury borrow $3.5 trillion in only one year? Where will the money come from? The total domestic savings in the U.S. are only around $600 billion annually. Even if we all put every penny of our savings into U.S. Treasury debt, we’re still going to come up $3 trillion short.

How much is a trillion dollars?

A trillion one dollar bills stacked on top of each other would be 68,000 miles or more than 8 trips around the world. A trillion dollars would fill 10,000 pallets of $100 bills. A trillion here, a trillion there, we’re talking really big money.

“Where is the money going to come from?” From our foreign creditors? Not according to the Indian or the Russian central banks, which have stopped buying Treasury bills and begun to buy enormous amounts of gold. One thing they’re not going to do is buy more of our debt. So where will we get the money? The printing press.” Porter Stansberry

Foreign nations are realizing that America will never repay them. Loaning us more money is out of the question. Sooner or later they are going to wake up and realize, “We will never be repaid the trillions of dollars America owes to us!” Then the party is over and reality sets in. It’s called default! And a world-wide great depression!

America is bankrupt – financially, morally and spiritually!

Medicare and social security are bankrupt. The post office is billions in debt. What’s the collateral for the money owed foreign nations? Our country? The debt our nation owes to foreign nations is as destructive to our freedom as if we had been conquered by an enemy nation. So do we lose our sovereignty? At what point do we lose this country because our government has spent us into bankruptcy? Then what? PANIC? Stock market collapse?

Take Back America!

Is our nation too far gone? Is it lost? Jesus came to save the lost. But can even Jesus save a nation if it doesn’t want to be saved? Is our nation a Christian nation? President Obama said, “America is no longer a Christian nation.” Then a few weeks later said, “America is one of the largest Muslim nations in the world.” And he said, “Islam has been part of our history.” Right! But it’s been our enemy.

What country does Obama think he’s President of? What do you call a nation with 70% Christians and less than 1% Muslim? I would call it CHRISTIAN!

All he has to do is take a look in the phone book and he will find Christian churches outnumber all others by more than 200 to 1. Show me one Muslim signature on the Declaration of Independence or on the Constitution. Did Muslims fight for our independence? No. The pilgrims who landed at Plymouth Rock were Christians, not Muslims. Our Founding Fathers were inspired by the Bible, not the Koran. The first time America sent troops into combat overseas was when Thomas Jefferson sent
the Marines to Libya to fight the Muslim Barbary Pirates. Where were the Muslims during WWII? They were with Hitler. Where were Muslims on 9/11? If they weren’t flying planes into the towers, they were rejoicing in the Middle East.

That’s the “rich heritage” Muslims have given America.

Is Obama a Muslim? He refused to even address (by video) the National Day at the Pole when thousand of Christians came to the Capital. However, he did take part in a celebration of Ramadan, the Muslim holiday. He greeted Muslims who came to D.C. and invited a Muslim committee into the White House where he took part in a Ramadan meal with them. Obama removed his shoes before Muslim prayer in a Mosque yet had the name of Jesus covered before speaking at Georgetown University. Why would the President cover the name of Jesus yet take off his shoes to show respect for Allah? He didn’t ask Muslims to cover the name of Allah.

Why is this important? If young people know nothing about our nation’s founding, they won’t defend the freedoms and prosperity they’re losing. If we are no longer governed by a Constitution, who makes the rules? What happens to our INALIENABLE God-given rights? Patriot Pastor Garrett Lear teaches the Constitution to high school students and speaks at conventions.

God didn’t bless this nation so we could waste it on ourselves. God blessed this nation for a reason! Yet we’re squandering our precious freedoms and prosperity He gave us! Congress is the most corrupt in our history with hundreds of billions being paid for votes to force socialized medicine and socialism. Lincoln said, “America is called to be a beacon of hope to all men to all time to come. “ God blessed us so we could bless the world.

In his speech before a joint session of Congress on Sept 9, 2009, Obama stated: “And one more misunderstanding I want to clear up – under our plan, no federal dollars will be used to fund abortion.” Rep Bart Stupak telephoned the President and confronted him about the apparent duplicity, as both the Senate and House plan called for the public funding of abortions. Stupak said the President said he was not talking about the House or Senate plans, but he was talking about his own plan which was never written. (And this guy is our President?)

Socialized Medicine

The magnitude of what Congress is doing with health care is staggering. It’s much more than bringing down medical costs and providing insurance coverage for everyone! If it was about coverage or costs, there are excellent private sector solutions. But the real issue is a socialist takeover of every sector of our nation. Amy Ridenour, author of Shattered Lives – 100 Victims of Government Health Care, says, “IF we allow socialized medicine…..

……it will have the compassion of the IRS...

……the efficiency of the Post Office...

……the long waiting lines at the DMV when life saving medicine is required...

……and all at exorbitant Pentagon Prices!

The results of socialized medicine are:

• 50% of women in Britain and New Zealand with breast cancer die from it! By contrast 20% of American women with breast cancer die from it.

• Britons with serious illnesses are seven times more likely to die from them than are Americans.

• Alzheimer’s patients are denied a $5 a day drug because it’s too expensive!
HOW MUCH IS YOUR LIFE WORTH? Socialized medicine can kill you! Bureaucrats will determine who lives and who dies based on costs and your potential contributions to the state. Once a bureaucrat determines your potential contribution to the state, they’ll decide if you’re worth more dead or alive. It’s already happening. Oregon has “assisted suicide.”

- Barbara Wagner, a lung cancer patient, had been prescribed a life prolonging drug but the Oregon bureaucrats refused to pay it. *It was too expensive.* Yet the same bureaucrats told her the plan would cover assisted suicide. Saving her life was *too expensive.* So here’s a pill.

- Randy Stroup, a 53-year old prostate cancer patient, was also denied treatments but offered full payment if he would just agree to be killed.

- Without God, human life has *little value.* That’s why belief in God is essential to *life.* In the 1950’s, an actor named Ronald Reagan warned America that *socialized medicine* was just the beginning of a *socialist take over.* He was right. Socialized medicine is the first step to destroying the best medical system the world has ever seen. Adding millions of new patients, while at the same time a large percentage of doctors retire, means rationing becomes a deadly reality. An Investors Business Daily survey showed 45% of doctors would retire because of low pay from a government system.

**America At Risk**

America is at risk, not from a foreign nation, but by liberal-Marxist educators within this country. Obama’s Director of Communications, Anita Dunn, in a high school assembly, praised Chinese communist dictator Mao Tse-tung, the worst mass murder in human history, as her favorite political philosopher. Jason Mattera, with Young America’s Foundation, says students are taught more about Marxism than our Founding Fathers. Jason’s professor said President Reagan was the worst President in our history. The anti-American left writes the textbooks, and they’re filled with hatred for America.

**America For Sale**

America is being transformed and many American still don’t know where it’s headed. What’s happening is unprecedented in our history. Trillion dollar deficits are the biggest loss of wealth in history. Russia and China are losing confidence in our financial sustainability to such a degree they are calling for a replacement of the US dollar with a “one world currency.”

The federal government was never set up to be sovereign. In George Washington’s America, the people are sovereign. Our gracious first President George Washington refused to be King of America. He led the fight for our independence away from a British king!

America was never meant to be ruled by kings or czars. But now Obama has 34 unelected czars who are not interested in your freedom but ruling over you. Public school students know nothing about our Constitution or the greatness of our Founding Fathers who designed this form of government where the people choose representatives who are subservient to us. We are not slaves to the state.

FCC’s Diversity Czar, Mark Lloyd, said, "It should be clear by now that my focus is *not freedom* of speech or press. *White people need to be forced to step down* so people of color, gays and others have the power.”

Washington Times

Sept 23 2009 page 1
The word **CZAR** comes from the word Caesar which means a *god-like king*. William Penn, founder of Pennsylvania, said, “Men will be **governed by GOD** or ruled by **tyrants**.” Isn’t this what’s happening? We’ve forgotten our freedoms are gifts **from God**. The following words are not from a fundamentalist preacher but the very mouth of Thomas Jefferson himself,

- “**God who gave us life, gave us liberty. Can the liberties of a nation be secure when we have removed a conviction that these liberties are a GIFT of GOD?**” Thomas Jefferson It was obvious to our Founders that freedom goes with belief in God. Yet we don’t get it.

- “**God grants liberty only to those who love it and are always ready to guard and defend it.**” Daniel Webster

- “If you love wealth more than liberty, and if you prefer the tranquility of servitude rather than the animated contest of freedom, then go home in peace. We seek neither your counsel nor your arms. But bend down and lick the hands that feed you; and may your chains rest lightly upon you. And may posterity forget that you were our countryman.” Samuel Adams.

We need to take our **heritage** seriously. Our adversary is rapidly **stealing** our freedoms – especially our **freedom to worship**. We need to be diligent in protecting what our forefathers gave us – especially for our children and grandchildren.

**Dr Jerome Corsi**, author of *America For Sale*, and *The Obama Nation* and *Why Israel Can’t Wait–the Coming War Between Israel and Iran*, gives his predictions about our trillion dollar deficits that are bankrupting us and collapsing the value of the dollar. They’re ending our sovereignty. Google’s **power meters** identify energy abusers to be fined and **imprisoned. The left is trying to “redistribute wealth” not create it. The left squanders the wealth that free enterprise created.** Even though Obama has been in office less than a year, he and his liberal comrades in Congress are **literally destroying this nation**. They are spending more than any civilization in human history, undermining our capitalist, free-market system and working to undercut the traditional family values upon which America was founded. Obama is working his hardest to remake America into a socialist, repressive government.

It’s not shocking that Obama was given the Nobel Peace Prize without any accomplishments. But that America gave him the Presidency with the same credentials.

Can you imagine the frustration of General McCrystal, with a lifetime of military experience, standing in front of a former **community organizer**, who doesn’t know the butt end of an AK 47, telling him how to **run a war**? Imagine Obama says to the FOUR STAR GENERAL, “You asked for 40-60,000 troops. Well thanks for your input General, but my vast experience as a **community organizer** tells me you only need 30,000 troops and an exit strategy in about 18 months.” **Can you imagine any other President doing that in any war?**

**A Cashless Society**

Could a global financial meltdown be used to shift America into a global economic system that will be controlled by one man – the Anti-Christ? 1900 years ago, the Bible predicted one man would take absolute control over the world’s economy to such a degree you would not be able to buy anything, even food, without his ID mark on your hand or head. How could this happen unless the world’s economic system is **cashless**? Waving cell phones with RFID devices will be all that’s required to buy...
groceries, fill up your tank or pay bills. When the world goes cashless, can the Antichrist and economic apocalypse be far behind? **Mark Hitchcock** is the author of over 18 books, including a fascinating book - *Cashless- Bible Prophecy, Economic Chaos, & the Future Financial Order*.

**Conservative vs. liberal**

- If a conservative doesn’t like guns, they don’t buy one. If a liberal doesn’t like guns then no one should have one.
- If a conservative doesn’t like a talk show host, he switches channels. Liberals demand that those they don’t like be shut down.
- If a conservative is a non-believer, he doesn’t go to church. A liberal wants any mention of God and religion silenced.
- If a conservative decided he needs health care, he buys it, or gets a job that provides it. A liberal demands that his neighbors pay for his.

<tr>
<th>Only in America do we spend billions bailing out GM and Chrysler so they don’t go bankrupt then we let them go bankrupt. (Losing billions of dollars also!)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Only in America can you be legally - illegal. Makes sense, right?</td>
</tr>
<tr>
<td>Only in America can you be 13 and have an abortion without telling your parents, but you must have a written note from your parents explaining why you missed school.</td>
</tr>
</tbody>
</table>

**Beliefs of A Good Liberal**

- You have to be against capital punishment but support abortion.
- You have to believe that the same teacher who can’t teach fourth graders how to read is somehow qualified to teach those same kids about sex.
- You have to believe that Margaret Sanger and Gloria Steinem are more important to American history than Thomas Jefferson, Thomas Edison, and A.G. Bell.
- You have to believe that standardized tests are racist but racial quotas and set-asides are not.
- You have to believe that the only reason socialism hasn't worked anywhere it has ever been tried is because the right people haven't been in charge.
- You have to believe that homosexual parades displaying transvestites and bestiality should be constitutionally protected, and manger scenes at Christmas should be illegal.
- You have to believe that it's okay to give Federal workers Christmas Day off but it's offensive to say 'Merry Christmas'.

**ABC – Anything But Christian** **1122**

The course, “Christianity’s Influence on America,” has been rejected by the University of Cal. because it’s too biased, too Christian! But “Intro to Buddhism” is acceptable for university credit. This is unconstitutional view point discrimination. Attorneys Jennifer Monk and Bob Tyler sued the U of Cal for rejecting courses such as: “Morality in American Literature,” while accepting “Gender, Sexuality and Identity” and “A Study of Western Caribbean Culture.” *What does that say about the University’s values?* But in another case, a federal judge ruled for Christian student, Chad Farnan, and against his history teacher for calling creationism “superstitious nonsense”. That’s a victory!

**Ave Maria Banned** **1132**

Censorship of Christmas and Christianity has reached an absurd level. The 9th Circuit Court ruled that the instrumental version of Ave Maria is unconstitutional to be performed in public schools because someone might think it’s religious. John Whitehead, of The Rutherford Inst. says, “We are in the battle of our lives over Christianity in America. This case could lead to the banning of every trace of Christian expression in public.” Joe Infranco (Alliance Defense Fund) says, “It’s not just the elimination of Christmas but the freedom to proclaim the gospel in public.” Dr Bob Simonds, of CEE, says schools have become aggressively anti-Christian.
Freedom to Learn 1128
How are schools that teach evolution as a fact, and the Bible as a myth, consistent with the Bible that says, “Do not conform to the pattern of this world but be transformed by the renewing of your mind”? How is training different than just teaching? David and Kim d’Escoto, authors of The Little Book of Big Reasons to Home School, say home schooling can teach from a Biblical view, bonds your family, and teaches according to your child’s specific interests while avoiding peer pressure and drugs. It’s ironic that Obama’s Safe Schools Czar, Kevin Jennings, is a homosexual activist!

Will your kids be Christian?  Bruce Shortt
Many evangelicals were shocked when Dr Albert Mohler wrote that it’s now time Southern Baptists developed an exit strategy from public schools. Why should that be a shock? Because we’re deluded into believing that "our schools are different." If we are confronted about the uncomfortable facts, we nervously shuffle our feet and try to change the subject. But the truth is, public schools are the nation's largest pusher of mind controlling drugs. And that teachers are not hesitant to teach 6-year-olds about homosexual marriage and that it’s none of their parent’s business…Barna reported that only 4% of teens can be considered evangelical Christians. Incredibly, Christians have the expectation that they can educate their children with a secular curriculum for 12 years then expect them to be Christians. We have unthinkingly made an aggressively anti-Christian public school system the teacher of our children, and then we’re surprised that our children are "like their non-Christian teachers."

The Worst Day of Your Life 1127
In uncertain, troubling times, people are looking for hope. How do you handle tragedy? How would you respond if your house was burned down, your belongings looted and your family – wife and kids-kidnapped- all in one day? It really happened to a man who loved God and was loved by God. Brian Zahnd, author of What to Do On The Worst Day of Your Life, gives biblical insights through the life of David to prepare us to have victory over tragedy. How? By changing our focus from problems to God’s power and love. Faith refined in the fires of affliction is our most precious possession.

Better Health – Naturally 1134
Some Christians say, “Who cares about the body, it’s the spirit that’s important.”

“Do you not know that your body is the temple of the Holy Spirit? …Therefore honor God with your body.” 1 Cor 6:19-20

How can anyone glorify God with their body if they make no effort to maintain good health? Public health officials warn that this generation of kids may be the first ones who will not outlive their parents because of weight-related illness. We are a nation that eats more sugar per person than any other nation and as a result have more serious illnesses. As childhood obesity increases so do the risks for heart disease, diabetes and high blood pressure. Teenagers, as young as 15, are now at risk for developing heart disease. More and more young people are getting heart disease at younger and younger ages. 91% of college women frequently go on a diet. Americans are dieting more but more overweight than ever.

Americans need to be educated to think prevention- before a cure is desperately required. What are the keys to vibrant health? Family practice physician, Don Colbert, author of The Seven Pillars of Health, gives scientific ways to have more energy and better health. These are not seven ‘fads’ of health or ‘theories’ of health but the seven proven pillars of health backed up by medical research.
• Dr Don Colbert says, “Walk more. Worry less.”
• What’s the number one complaint he hears from patients in his office? “I’m tired.” What causes fatigue? Dehydration causes fatigue, back and joint pain, and short term memory loss, and fuzzy thinking. Making healthy choices will add years to your life and LIFE TO YOUR YEARS!
• How important is sleep? Half of Americans suffer from insomnia. Sleep deprivation has been linked to obesity, high blood pressure and type 2 diabetes. Why is sleep before midnight better than just sleeping in?
• What are living foods? Sludgy substances are called hydrogenated or partially hydrogenated oils and trans fats. What you don’t know could be keeping you from enjoying good health. “If I knew I would have lived this long, I would have taken better care of myself.” Winston Churchill at age 85.

The Christ of Christmas

Think about this C.S. Lewis quote. What if there was no Christmas? There would just be long nights and cold weather and nothing to light up the season. Nothing to look forward to! There’s a wonderful spirit at Christmas that goes beyond gifts, friends, family and music. Here’s what makes Christmas different and gives life to the season. Renowned author, Max Lucado, author of 3:16–The Numbers of Hope, says people never tire of hearing about God’s love for them. That’s it! That’s what makes people joyous, generous and happy at Christmas. It’s God’s love FOR THEM. And they can feel this way all year around. Jesus is the reason for EVERY season.

Listen! Jesus went from holding the stars in His hands to clutching Mary’s little finger. WOW. Read that again. Why did JESUS come to earth? What is He like? He stopped the storm at sea but allowed soldiers to nail Him to the cross. Bruce Marchiano, the gifted actor who played the part of Jesus, gives such a dramatic description of Jesus you will never forget it. Jesus’ profound love has no limits. When Bruce was playing the part of Jesus, he surprised himself when he kissed the hands of a filthy, blind beggar in Morocco. Here is his account:

I will never forget it. The man who played the blind beggar really was a blind beggar. Suddenly I found myself down in the dirt with this guy, face to face, close up and eye to eye. This was undoubtedly an encounter that really took place two thousand years ago between Jesus and blind Bartimeus. I was so overwhelmed with this man’s brokenness that I started to cry and cry. What really hit me was Jesus’ heartbreak over him and the depth of Jesus’ compassion for this man and how Jesus must love him.

I tell you, I knew about Jesus’ love for people in pain before that day, but I never really “got it” until that moment. I broke completely. I pulled the guy into my arms and long after the cameras stopped rolling, I cried and cried. One cast member told me later with tears in his eyes, “I’ve known Jesus a long time, but I don’t think I ever really KNEW Him until now.” Jesus Wept -How Wide is the Love Of Christ…Bruce Marchiano

The Spirit of Thanksgiving

Thanksgiving is not just a once a year holiday but a pattern for life. God has a gift for you that will enable you to go through the worst of times and enrich you to enjoy the best of times.

Be grateful for this moment for this moment is your life.

In other words, gratitude is an attitude for a better life. Merlin Carothers, author of Prison to Praise, which isn’t about a prison with bars but a prison of circumstances, says praising the Lord in bad circumstances demonstrates trust in Him. Praise is not a magic formula to manipulate God, but genuine gratitude pleases God and gives you peace and joy and sometimes miraculous answers. Praise works wonders! This is a classic that’s filled with miracles.

Mastering Mathematics

Why the epidemic of math incompetence? The new math is getting old. Math is not complicated and can be made simple. Dr Andrew Bernstein, a professor and writer, says parents would be horrified if they knew how students don’t learn to multiply or divide but use calculators and guess at the right answers. A senior engineer, Nicholas Aggor, was so troubled his sons were doing so poorly at
learning math, that he read their textbooks and saw why they were having trouble— **it was the textbooks**! He quit his job and wrote a series of math textbooks and his sons became excellent in math!

**Live Your Calling** 1125

Millions of Americans are out of work and half of those with jobs are not satisfied with their work. Being out of work or unfulfilled in your work could be the best opportunity of your life. What is your purpose in life? Successful people find solutions while unsuccessful people see only road blocks. What does God want you to do with your life? **Kevin & Kay Marie Brennfleck**, authors of *Live Your Calling: A Practical Guide to Finding and Fulfilling Your Mission in Life*, are experts at helping people identify their gifts and their purpose in life and use them to fulfill their calling. Enlarge your vision!

**The Issue Is Life** 1037

THE MOST POWERFUL PRO-LIFE program! Have you ever talked to someone who survived **being aborted**? **Gianna Jessin** survived being aborted and is a living messenger of what abortion really is. **Dr Bernard Nathanson**, the infamous abortionist who operated the largest abortion mill in the world where he killed over 75,000 babies (including his **own son**), and who helped make abortion legal in American, has now become a pro-life spokesman and a **Christian**. What made him change? It was, as his book is named, *The Hand of God*, and courageous Christians in front of his abortion clinic.

**Learning to Soar** 1136

“Kites rise highest against the wind – not with it.” Winston Churchill, British prime minister

Just as a mother eagle stirs her nest to encourage her eagle to fly, so God “stirs your nest” to motivate you to take the risk of trusting God completely and step out in faith to a more abundant life. **Problems can be stumbling blocks or stepping stones.** God uses **hardships** to teach us to totally trust in Him! The Bible says those who trust in the Lord will soar on wings **like eagles**. The majestic eagle is fearless as he **flies into the face of a storm**. Just as stronger winds cause the eagle to fly higher, so adversity strengthens Godly people. **Avery Willis**, author of *Learning to Soar – How to Grow Through Transitions and Trials*, says adversity may be caused by God to develop greater faith and maturity.

Look at what God has created, like the vast universe, to see how awesome God is. **There are stars so big that if they were hollowed out you could put 30 billion of our suns inside them.** Epsilon has a diameter of 2 billion 300 miles. There are 3 super giant stars that are more than a billion miles wide and could contain 3.4 billion of our suns. There are 70,000 million, million stars in the visible universe. **This is ten times the number of grains of sand in the all the beaches and deserts of the world. God has named all the stars.** Stop and think of how many names you know. Yet God knows every one by name. Think also how **God’s thoughts for you** are more in number than the sand.” (Ps 139:18) That’s incredible! That’s truly spectacular!

**Dismantling America** by Thomas Sowell October 27, 2009

Just one year ago, would you have believed that an unelected government official, not even a Cabinet member confirmed by the Senate, but simply one of the many "czars" appointed by the President, could arbitrarily cut the pay of executives in private businesses by 50 percent or 90 percent?

Who would have thought that another "czar" would be talking about restricting talk radio? Who could have imagined, just a year ago, that anyone would be talking about having a panel of so-called "experts" deciding who could and could not get life-saving medical treatments?

Scary as that is from a medical standpoint, it is also chilling from the standpoint of freedom. If you have a mother who needs a heart operation or a child with some dire medical condition, how free would you
feel to speak out against an administration that has the power to make life and death decisions about your loved ones?

**Does any of this sound like America?** How about a federal agency giving school children material to enlist them on the side of the president? How far the President will go depends on how much resistance he meets. But the direction he’s leading is obvious and very scary.

Among the people appointed as czars by President Obama have been people who have praised enemy dictators like Mao, and who have seen the public schools as places to promote sexual practices contrary to the values of most Americans, to a captive audience of children.

Those who say that the Obama administration should have investigated those people more thoroughly are missing the point completely. These are the kind of people he has been associating with for decades! Nothing is more consistent with his lifelong patterns than putting such people in government-- people who reject American values and resent Americans and everything it represents.

Nothing so epitomizes President Obama's own contempt for American values and traditions than trying to ram two massive bills through Congress in his first year-- too fast for either of them to be read, much less discussed. Some people are starting to wake up. Whether enough people will wake up in time to keep America from being dismantled, piece by piece, is another question and the biggest question for this generation. 1 Tim 2:2, **Pray** for the President.

**HUMOR**

The bus driver said, “When I stopped the bus to pick up Chris for preschool, I noticed an older woman hugging him as he left the house. Is that your grandmother?” he asked.

"Yes," Chris said. "She's come to visit us for Christmas."
"How nice," he said. "Where does she live?"
"**At the airport,**" Chris replied. "Whenever we want her, we just **go out there and get her.**"

I didn't know if my granddaughter had learned her colors yet, so I decided to test her. I would point out something and ask what color it was. She would tell me and always she was correct.

It was fun, so I continued asking her the colors of various items. At last, she headed for the door, frustrated and saying wisely, "**Grandma, I think you should try to figure out some of these for yourself!**"

May God bless America once again!
